- Artists have no hour count time constraint to finish the set amount of songs selected for the project (AND ONLY THOSE SONGS). Songs cannot be changed or added on beyond the agreed amount. If new songs are added beyond the agreement, they will be treated like an hourly session at the rate of \$45 per hour.
- Any other terms not listed discussed and agreed upon signing of the package agreement.
- **OPTION 2: EXTERNAL/ SENDING FILES** (*mixing only* or *mixing and mastering*). these packages are best suited for projects that have a mix of **quick** and **complex mixes** or predominantly **complex mixes** (*review mixing and mastering section for clarity*). Promotion

❖ Songs that are recorded, mixed and/ or mastered by MitchmiX Sounds, once publicly distributed and officially released, can be listed on our sample mix page unless the artist deems personally they do not want their music listed. Demonstrations of our sample work for already publicly released music displays the quality of work we have created for our clients. At most, it generates more exposure to your content. We do not monetize off of your song getting more streams, only you do.
